Gentlemen:

Enclosed is the Revised Draft Final Proposed Plan for Operable Unit (OU) 1 (881 Hillside Area) for your review and comment. The document has been revised based on the recommendations of the Dispute Resolution Committee and the OU 1 Working Group. In addition, the size of the proposed excavation has been significantly reduced from the excavation proposed in the Feasibility Study. The Department of Energy (DOE) requests that comments on the document be provided back to us by December 1, 1995. DOE proposes a working group meeting the following week (December 4-7, 1995) to discuss comments and prepare the final document. At that time, the group can establish the public comment period and public hearing date.

The DOE appreciates the effort by the Colorado Department of Public Health and Environment and Environmental Protection Agency in expediting this review. If you have comments or would like to discuss the document prior to the above meeting, please call Dave George, the DOE Environmental Project Team Leader at 966-5669.

Sincerely,

Steven W. Slaten
